

Lockdown Browser Chrome Book Screen Resolution Settings

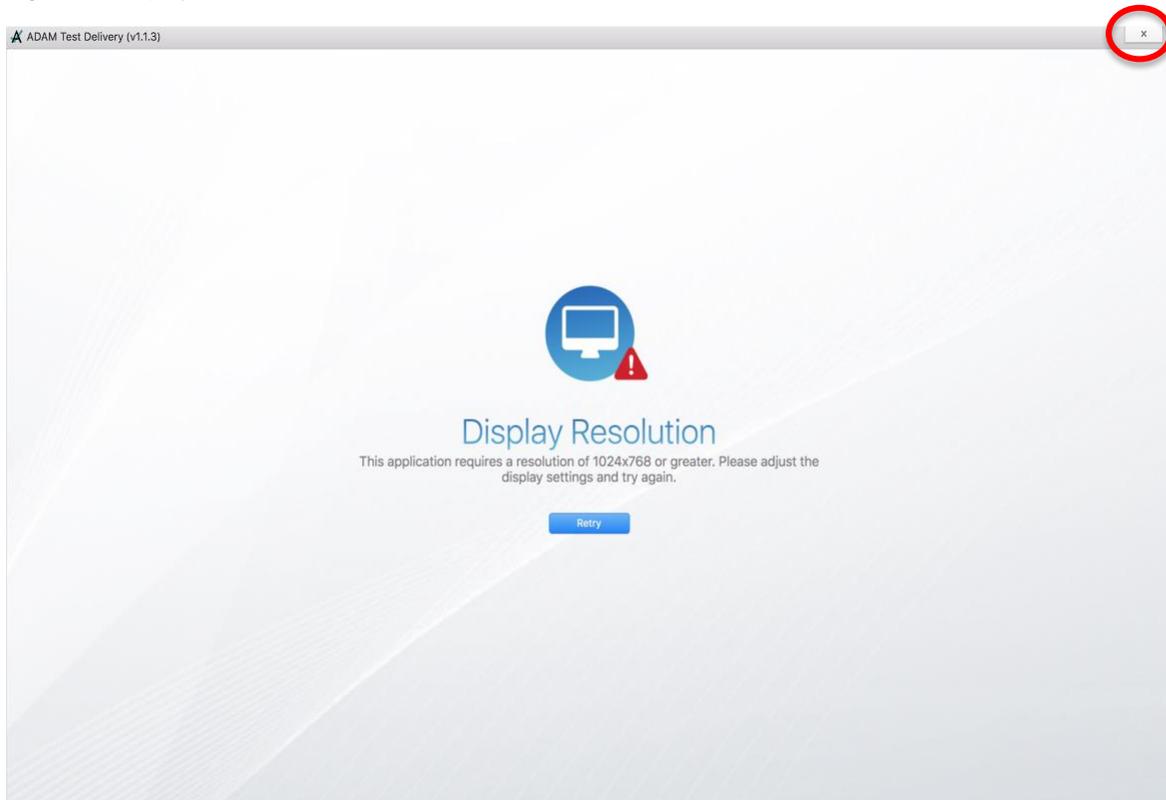

Updated 5.1.19

This document contains instructions on how to update Chromebook screen resolution to address Screen Resolution Error.

Student Testing

If a student enters their identifier/test code and then is directed to the screen shown in Figure 1 please follow the steps outlined in this document.

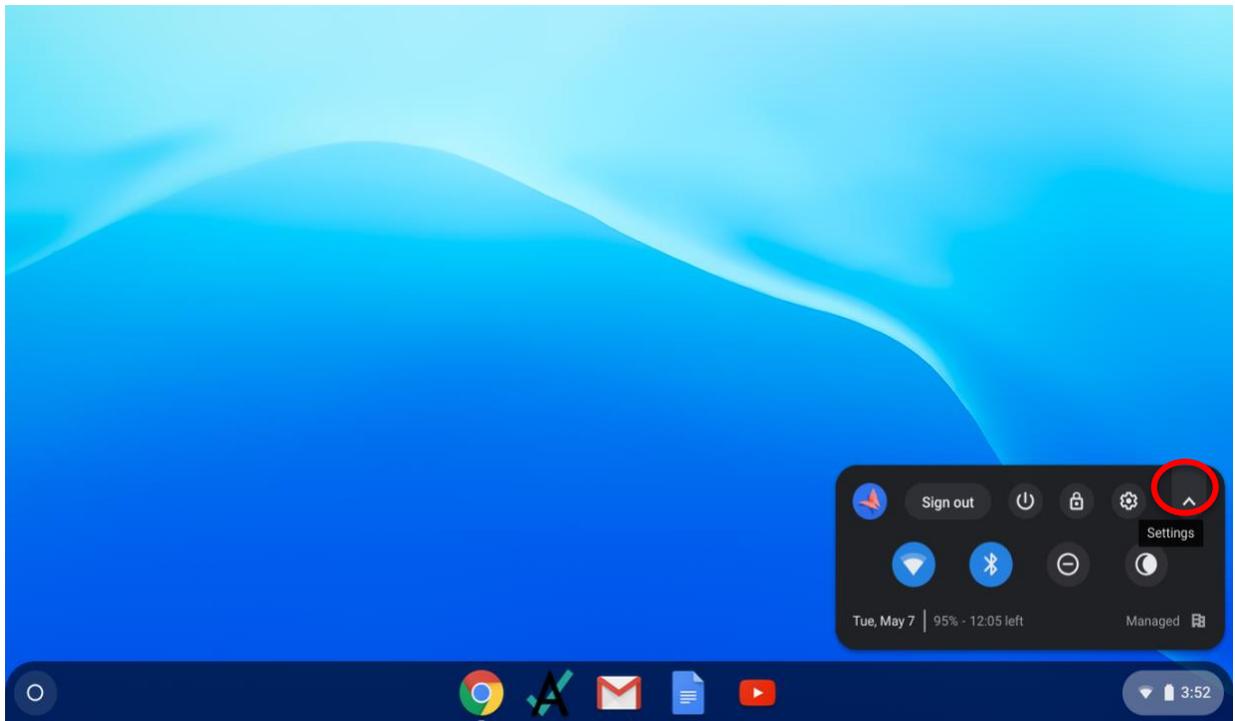

Figure 1 - Display Resolution Error

Step 1 – Exit ADAM by clicking on the X at the top right of the screen, as shown in Figure 1 Login to Chromebook (either with student or teacher account)

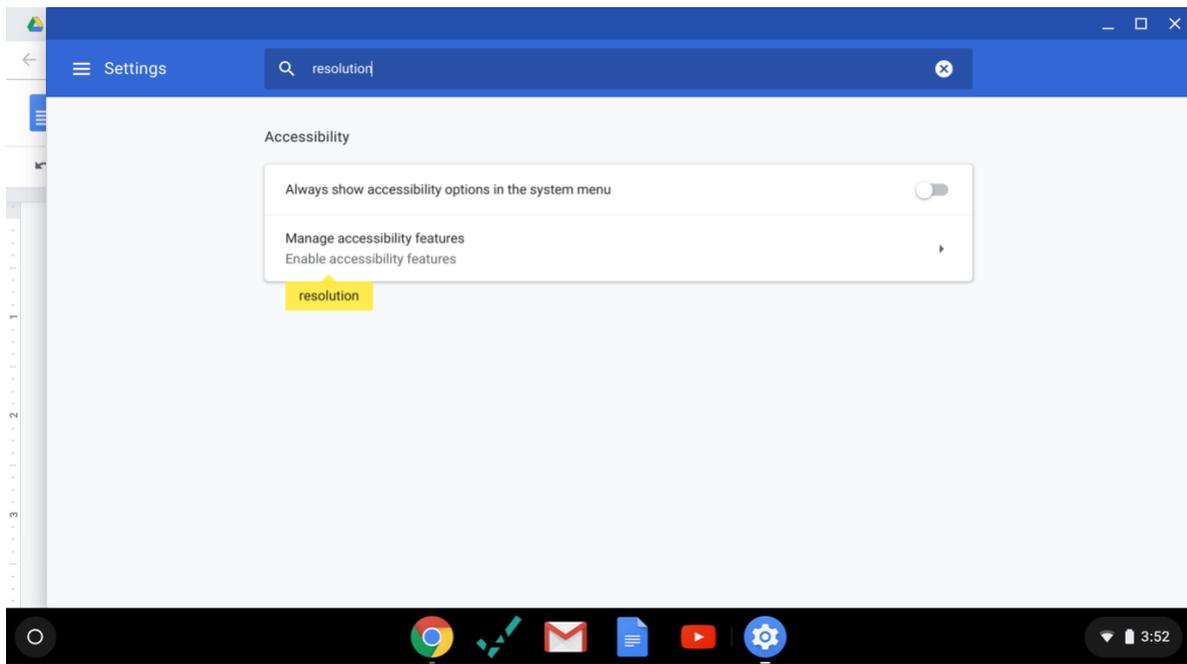

Step 2 - Click on the settings option as pictured in Figure 2.

Figure 2 - Settings Menu

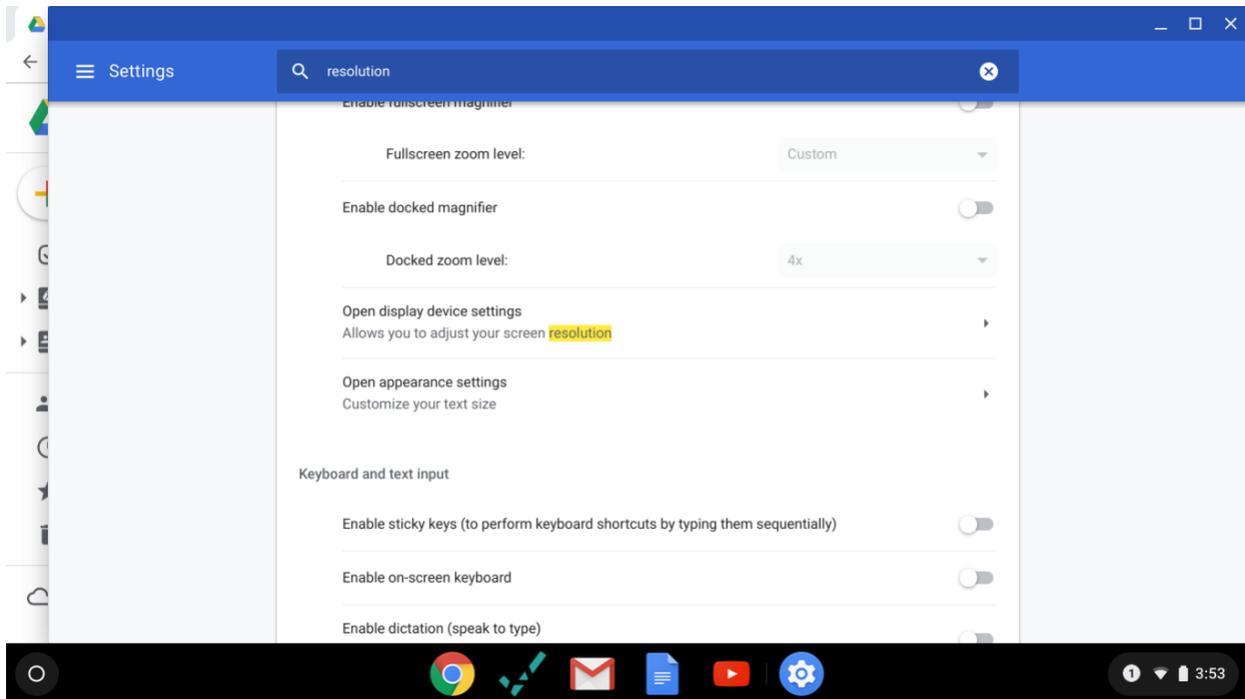

Step 3 – Type Resolution in the search box at the top of the settings page, as pictured in figure and click on the manage accessibility features menu option as pictured below

Figure 3 - Search Resolution

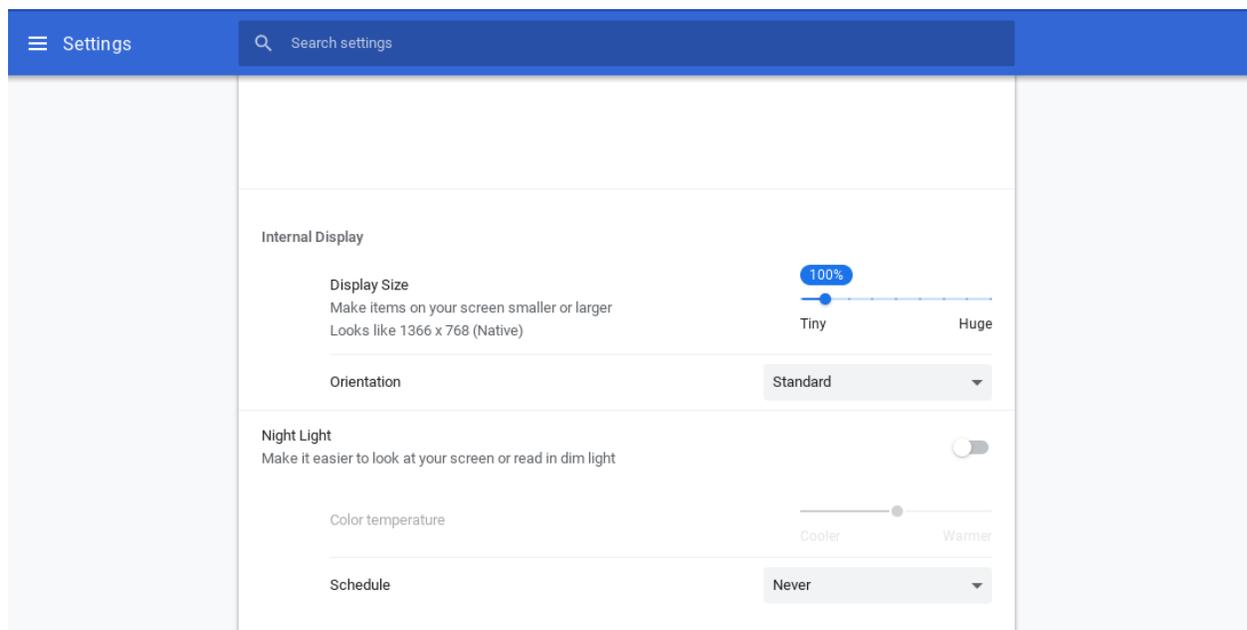

Step 4 – Click on Open display device settings as pictured in

Figure 4 - Open display device settings

Step 5 – Slide Display size to be 100%

Figure 5 - Adjust display size to 100%

Step 6 – Have student log out of the Chromebook and launch the ADAM application to begin testing.
